Mathematics and Statistics Courses

UC Berkeley Extension offers mathematics and statistic courses to fulfill prerequisites, refresh your skills or prepare for an M.B.A. or other advanced degree programs. We offer courses in a variety of formats so that busy professionals can meet their educational goals.

Classes are available in the following formats:
- Classrooms in Berkeley and San Francisco
- Online, enroll anytime

Classroom Courses

Take a mathematics or statistics course in Berkeley or San Francisco. Courses are offered in the evenings and on weekends to accommodate your schedule. You are required to take and pass a final exam to pass the course. Available classroom courses:
- Analytic Geometry and Calculus-A
- Introduction to Statistics
- Mathematics Refresher

Online Courses

Our online mathematics and statistics courses are offered in a continuous enrollment format, so you can enroll at any time. The course begins when you enroll. You have a minimum of 90 days and a maximum of 180 days to complete the course. This time frame allows for instructor-led interaction and feedback between assignments. You are required to take and pass a proctored final exam to pass the course. Available online courses:
- Calculus 1
- Calculus 2
- Introduction to Statistics
- Math for Management
- Precalculus

Prepare for Your M.B.A.

To meet the recommended quantitative proficiency for the UC Berkeley Haas School of Business Evening and Weekend M.B.A. Program, complete one of the following courses:
- Math for Management
- Analytic Geometry and Calculus-A
- Calculus 1

For other institutions' M.B.A. or advanced degree programs, inquire directly with individual admissions offices to determine whether these courses meet their recommendations and/or requirements.
