The Professional Program in Leadership in Sustainability and Environmental Management offers you a structured selection of courses that covers topics on sustainability leadership and change management, environmental law and policy, compliance management systems and climate change risk-mitigation strategies. In addition to learning how to implement sustainability practices in cost-effective ways in public and private sectors, you acquire practical knowledge and a set of management tools based on sustainability leadership principles. Gain the skills and knowledge to take advantage of new opportunities in the emerging global green economy.

**4 Required Courses, 1 Elective***

**8 Semester Units, 120 Hours of Instruction**

Environmental Law and Regulation  CIV ENG X440  (2 semester units)
Study federal, state and local environmental regulations from the perspective of permitting and operational compliance.

Environmental Management Systems and ISO 14000  NAT RES X422  (2 semester units)
Learn to use the international EMS standard ISO 14000 as the framework for environmental improvement, sustainability programs, carbon-reduction strategies, environmental compliance and operational efficiencies.

Introduction to Climate Change, Environment and Sustainability  NAT RES X444  (2 semester units)
Study a broad spectrum of interrelated global environmental issues through hands-on case studies to develop your planning skills and prepare for jobs in the sustainability industry.

Sustainability Leadership: Strategies and Paradigms  NAT RES X419  (1 semester unit)
Learn how to effectively communicate sustainability issues in your work environments; link green initiatives to cost savings and brand recognition; and engage shareholders and stakeholders in making decisions to move toward sustainability.

*See the website for a complete list of available electives. Course availability is subject to change.

Prerequisites for Admission
There are no prerequisites for the Professional Program in Leadership in Sustainability and Environmental Management, but a bachelor’s degree is recommended.

Curriculum and Completion Requirements
The program comprises 4 required courses and 1 elective for a total of 8 semester units (120 hours of instruction).

You must take all courses for a letter grade. To receive the Award of Completion, you must maintain an overall minimum 2.5 grade point average, with a grade of C or better (no C- grades) in each course. All coursework must be completed within five years of registering for the program. However, requirements may be updated based on new developments in the field of study; we recommend completing the curriculum in a timely fashion.

How to Register for This Specialized Program of Study
Register for the Professional Program in Leadership in Sustainability and Environmental Management at extension.berkeley.edu/cert/register.html. Click on the More Information button next to the program title to begin the registration process. Complete your student account profile if you are a new student, and pay the nonrefundable program registration fee.

You may enroll in individual courses without registering for the Professional Program in Leadership in Sustainability and Environmental Management.

Value of a UC Berkeley Extension Specialized Program of Study
